Key Stage 2 Rainbow Maths Objectives

RAINBOW MATHS

INTRODUCTION

The purpose of Rainbow maths is to improve the children's rapid recall of the four operations when applied to basic mathematical questions.

Elements Stages

Addition and subtraction

Fire	adding and subtracting
Air	adding and subtracting
Earth	adding and subtracting
Water	adding and subtracting

Rainbow Stages

Multiplication and division

Red	multiplying
Orange	multiplying
Yellow	multiplying
Green	multiplying
Blue	multiplying
Indigo	dividing
Violet	dividing

Award Stages

Division and decimals

Bronze	dividing and multiplying
Silver	dividing
Gold	dividing decimals
Platinum	dividing decimals
Kryptonite	Converting decimals

Extra levels added:

Plutonium	percentages
Mercury	powers – square/square root
Uranium	algebra

The children spend 10 minutes each day working through their colour card. Everyone starts the year at lowest part of the scale (Fire or Red depending on your focus). When a child can successfully answer all 50 questions correctly within 4 minutes every day for a week then can then move up a colour. When they get to the end of the stages (Water, Violet or Kryptonite) they can either go on to the next Group of Stages or restart depending on the focus of learning (addition and subtraction or multiplication and division).

Each year, the children start back at Fire or Red regardless of their ability.
