So...

What did the Romans do for the People of  
**First Century in Palestine – the Holy Land ?**

# SO... Impact of Rome on Palestine ?

## **Negative Impact:**

1. Imposing a 'non- Jewish puppet king', Herod the Great – ambitious & brutal.
2. Introduction of military governors such as *Pontius Pilate*, to oversee the political activities of the state.
3. Provoking in-fighting and bitter power struggle between various Zealots and aristocratic leaders so weakening their ability to fend off the Romans as they advanced into Judea.
4. Paying taxes to Rome for the upkeep of the Roman army based in Palestine.
5. The influence of more and more of the pagan Roman culture.
6. The siege and burning of Jerusalem, destruction of the Temple AD 70.

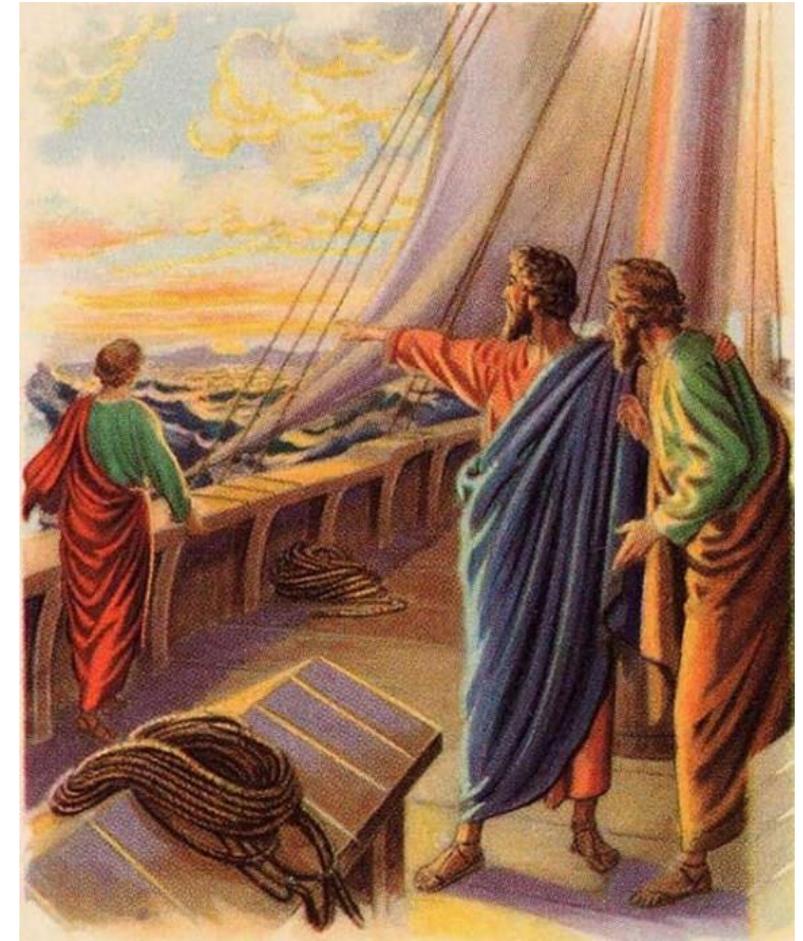

# SO... Impact of Rome on Palestine ?

## **Positive impact:**

1. Building programmes for towns and cities: public building erected, water systems installed and roads laid.
2. The third rebuilding of the Temple by Herod the Great in 20BC.
3. Legal protection by Rome to the Jews. They were, initially, allowed to continue their religious teaching and practices.
4. Stability throughout the Roman Empire.
5. Trade, travel, spreading of ideas including the Christian message; Palestine was a Roman province with excellent links to Europe, Africa and Asia. *Remember Paul's 3 missionary journeys!*
6. Rome was a main source of both the trade and wealth.
