

## What is a Magnet??

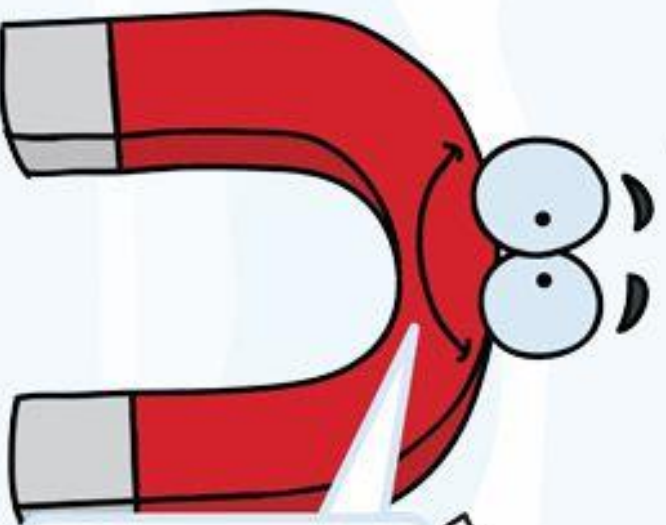

# MAGNETS

When two magnets are close, they create pushing or pulling forces on one another. These forces are strongest at the ends of the magnets.

A magnet has two ends: the north pole and the south pole.

Some magnets are stronger than others. Strong magnets will create bigger pushing or pulling forces than weak magnets.

What objects are attracted to Magnets?

The diagram is enclosed in a rounded rectangular border and is divided into two circular sections. The left section is labeled 'Magnetic' in green text and contains various metal objects: a paperclip, a key, a wrench, a screwdriver, a knife, a pencil, a pair of scissors, a fork, a spoon, a hammer, a nail, a bolt, and a nut. The right section is labeled 'Non-Magnetic' in green text and contains various non-metallic objects: a banana, a purple jar, a yellow tube, a green pencil, a red pencil, a blue pencil, a red cup on a saucer, a striped scarf, a cardboard box, a pair of chopsticks, and a pair of tweezers.

**Magnetic**

**Non-Magnetic**

The closer you get to Jesus the more you are drawn to Him..... and the more you know about Him, the more you come to appreciate, love and become like Him!

Just like iron pieces, the closer they get to the magnet, the more they are attracted to it! And this is like us, the closer we are to Jesus, the more like Him we become.

**Mark 6:30-34, 54-56**

I wonder who Jesus is? - and why are we attracted to him?

Have A Go.....  
Make a 'Jesus Loves Me'  
Fridge Magnet.

Use the craft pieces to design a fridge magnet, which shows who Jesus is and what attracts people to Him!
