

To make your 'Key to Faith':

Ideally print this template onto some thin white card and cut around the outside of both sides of the key shape.

Fold this over and glue both sides together, before cutting out the rest of the shape.

You could always use white paper and stick both sides onto some other cardboard instead.

Then you can colour the key in as you want to – and maybe punch a hole at one end so you can hang it from a door?

The Holy Spirit enables us to live the new life Jesus gives us.
