

**ST LEONARD'S CHURCH
GLAPTHORN**

We are currently engaged on a project to greatly improve the lighting in the church, not just for worship, but to make it a more suitable venue for use by the school and by the community for events such as concerts and performances. We are currently trying to raise funds for this by applying for grants, but also through various fundraising events.

These planned improvements notwithstanding, the church is currently available for use by the community for appropriate events, and anyone considering this should email St.Leonards.Glaphorn@gmail.com or call 07581 255036 or 07580 263456.
