*“O Lord, our Lord, how majestic is Your Name in all the earth! You have set Your glory above the heavens.” (Psalm 8:1)*

Have you ever felt the need to just take the time to stop and take time to look at the world around you? On a day when it is dull and windy yet there are still things that can make your senses tingle. If you go and watch the waves being blown about and marvel at how they melt into one another it is a wonderful thing to stop and watch the forces working together. We are but small pebbles in this magnificent world made by God's hand. A place where one can do some soul searching or just enjoy the pull of the waves crashing into each other. Such power yet can be so gentle at the touch of God's will. We can be very close to our heavenly Father listening to the wind rushing through the trees or blowing the leaves gently on a summer day. One can have a deep sense of the Holy Spirit moving around us as we just stop, take time and listen for his voice. The troubles that were looming large may fall away in the vastness of God's greatness and majesty. Teaching us to pray to talk with our loving Lord, helping us to take the load of our shoulders.

God is in control managing all that is around us, leading and showing how much there is to see in this wonderful world that we live in. Given to us through his creation, again we are just small pebbles but oh how much we can send out the ripples into the bigger oceans to bring others into the love of God. We are blessed to call you Abba Father; we want to lift you high and glorify your precious name to all the earth. We bow in adoration at your feet. Let your will be done here on earth as it is in Heaven. Let us sing your praises always in our lives and we be at peace in our hearts. *“And blessed be His Glorious Name forever, and let the whole earth be filled with His glory; Amen and Amen”.* (Psalm 72:19)
