

Wednesday 2nd June 2021

Make some time daily to listen to God

In the morning, LORD, you hear my voice; in the morning I lay my requests before you and wait expectantly.

When you want to hear God speaking to you, then you just have to set some time in your daily life to stop, be still and listen. It is quite amazing when you actually step away from the daily grind of life and listen for his small voice of calm as the Holy Spirit through God, whispers in your ear. When you are rushing here and there, it is almost impossible to let God get a word in; after all Jesus took time away from the crowds to speak to and listen to his heavenly father. Then we must do the same to receive from God instruction on how we live our lives. When we speak to God in our prayers we must not expect to get an answer immediately, but we do get answers to our prayers whether it be that day or maybe even some time later. God answers our prayers when it is the right time for that prayer too be answered. We need to ask and be prepared to trust in our Heavenly Father for his guidance to which we may act upon. I am often reminded of the words of the hymn; Take time to be holy, speak oft with the Lord. So apt to live our lives in our connection to God.

Prayer; heavenly Father help us to take time to speak and listen out for your voice guiding us. Help us to hear when you are speaking to us. We pray this in your precious name. Amen.
