“When we were utterly helpless, Christ came at just the time and died for us sinners.”
Romans 5:6

How many times in a day do you turn to your mobile and play a game on it? There are so many games that make you jump through hoops to get better than a friend or another person on the same app. It is so frustrating when you almost reach the top and something in the game jumps up and knocks you right back to the beginning. Having to start all over again. We have this in our real lives as well, when something happens to knock us down and we have to start over again. But remember the truth in today's verse; God is always close to us, He watches over us all in his grace. And his love and mercy are renewed every morning.

He gives us hope and encouragement to turn to him daily and helps us back up to stand once more being held in his love. Jesus came to give us life just when we needed it most and through Christ's love and God's amazing love we know that we are never alone in dark days and in good days. When we get knocked down God is there taking us by the hand and lifting us up to be able to carry on. All we need to do is give thanks and praise God for all he has and will do for us.

Loving Father we give you all the praise and glory and our thanks for loving us enough to take away our sins and lift us up daily to love one another as you have loved us. Amen.
