

8. THE 'VESTRY'

Because the sacristy shown in Nicholson's plan was never built and the tower is so small, the church lacks storage space. There is a small compound at the western end of the north aisle, surrounded by 19th-century linenfold panelling from Goodrich Court, which was given in 1952 by Dorothy Trafford in memory of her father Harold Moffatt. There may have been an earlier version of this, as in 1884 he was thanked for panelling the vestry in Scots pine.
