

Noah's Ark Story Sack

Two story sacks were completed in the Autumn of 2017. Although slightly different in their composition both told the story of Noah's Ark, one was given to Ruishton School and one to St George's Church.

A wide variety of animals were made and divided between the two sacks. Patterns were available for most of the animals and people.

The Ark was created using crotchet, without a pattern. Jen made an Ark which looked like the picture in the book.
