We're going to make a sword now; wow!

## Sword of the Spirit

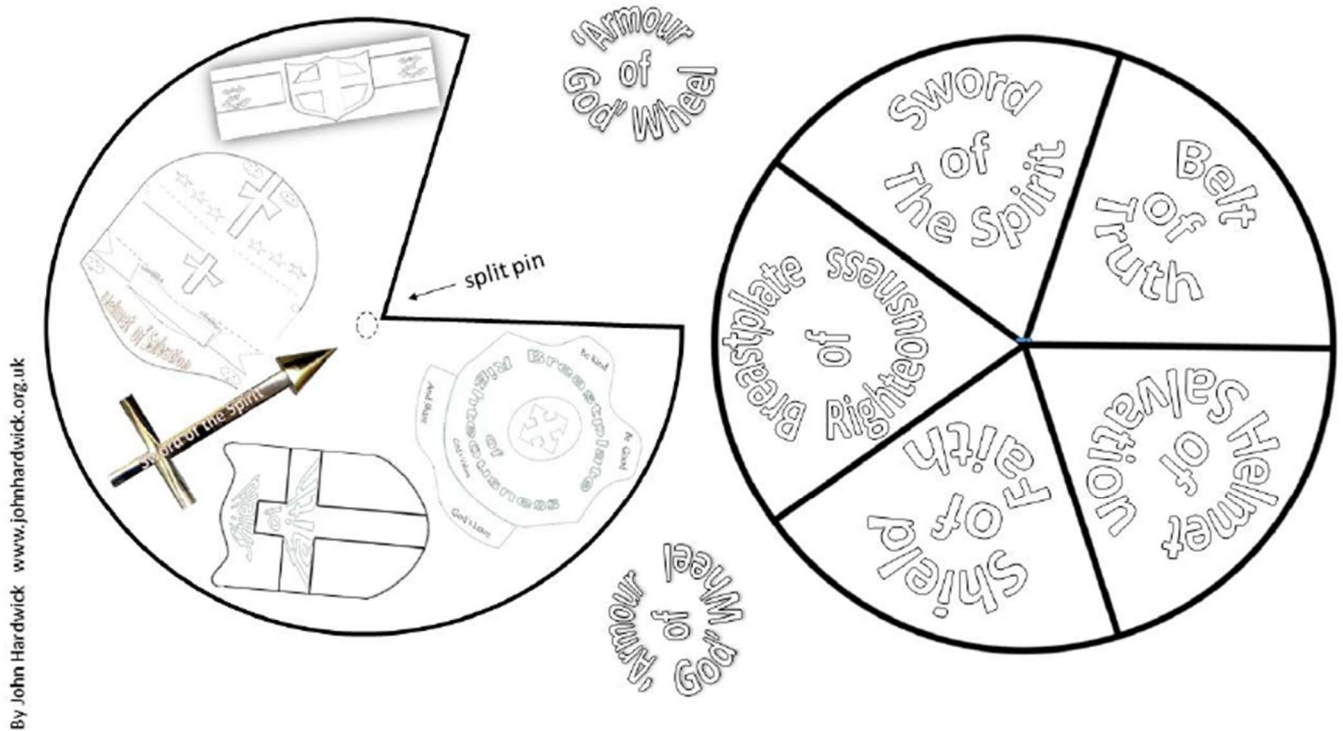

You need a thin piece of card (ideally silver). 600 mm for larger sword or A4 card is approximate half measurements. Cut the card 1/3 length will be used for the Cross Hand, 2/3's for the Length of Sword. Roll the Length of Sword card to form a tube – (wrap the card round a sellotape or glue stick to form an equal shaped tube)

Make holes in the 'Cross Handle' card as below so the Length of Sword can be pushed through the Cross Handle

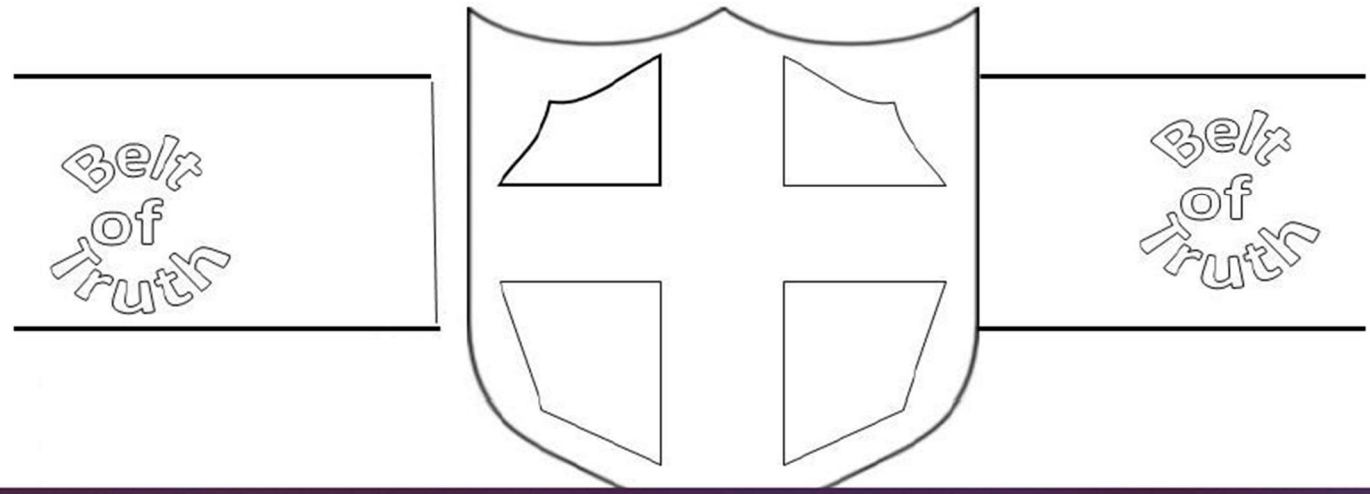

Make a small cone for the point of the sword

Why not roll up the bible verses and put them inside the sword's tube

And we're going to use our sword with the spinning wheel on the next page. Knights also need belts to hold their swords on with, so you can have a go at colouring the belt or why not make a HUGE one you can wear!

What else does a Knight need, why all of his, her or their armour of course!

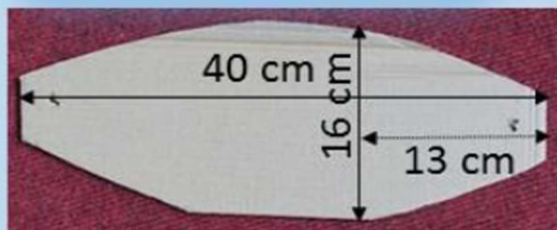

Turn to the next page to make a whole suit of armour.

Why don't you draw your breast plate, your shield,

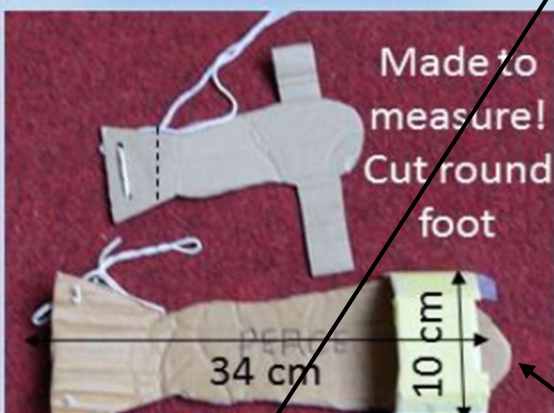

Helmet of Salvation

Belt of Truth (Buckle)

Shoes of Peace

Your helmet and your shoes, and colour them in??  
Had fun? See you tomorrow for the story of Gideon
