Kirkbymoorside Environment Group**

# Shopping in Kirkbymoorside Town

At first glance there don't seem to be many shops in Kirkbymoorside, but there are actually about forty. Together with the market on Wednesdays they cover most everyday needs.

The proprietors, whose names we have listed, are usually open to suggestions and are pleased to try to get particular items that you may need. Although only a few do home deliveries, almost all have said that in an emergency, or in a special case of illness or disability, they would be willing to help out. Talking to shopkeepers is one of the main pleasures of local shopping. Their experience, either local or from their previous varied and interesting lives, can be both valuable and interesting.

Some of our shops do most unexpected things: the chemist is licensed and supplies excellent wine; the butcher is a fund of local knowledge and can tell you what time the next bus is.

## Why a Shopping Guide?

- **Shopping locally keeps money circulating in the local economy, rather than ending up in the pockets of remote corporations.**
- The spirit behind the Guide is an expression of support by Kirkbymoorside Environment Group, and much of the town population, to show that we appreciate and love our high street, and the personal services it offers. There are very few towns left in the UK which can offer so much.
- The Guide is much more than just a list of shops. The indexing, which is pretty exhaustive, makes it easy to find which shops sell what – for example all the places where you can find a new umbrella, or a hand-painted coffin..
- The Guide is leapt upon with enthusiasm by both residents and visitors. It's quite difficult to keep up with replenishing the stock at the Post Office or Summit Bakery.
- Newcomers to Kirkbymoorside are always grateful for a copy, as it also lists all the clubs, organisations and so forth – an amazing number for such a small town.
- This paper copy really is quicker than looking things up on your mobile phone!

## Greenstuff

In this edition we are **highlighting** what shops are doing to help the environment. Shopping is one of the areas of life where there is more **plastic** involved than many of us would like. The Environment Group is trying to make a difference. Some actions are easy: Take a shopping bag with you and turn down offers of plastic bags. Take a re-useable plastic box to buy fish or meat. Go to shops where you can take your own containers to fill and refill. Value the plastic that you cannot avoid, and reuse it often. Look for plastic-free alternatives for everyday items. This is less easy, but some things, such as tooth brushes, washing-up brushes etc do not have to be plastic. All this requires us to be slightly more organised than in the past - but it soon becomes a habit to keep a basket/ cloth bag in the car. See how little plastic you have to throw away at the end of each week. Of course, with plastic there is no 'away', it's here for ever.

## Moors Gateway Rotary

The change of name to 'Moors Gateway Rotary' is to reflect its relevance to Kirkbymoorside, and its involvement in the town and surrounding area.

Our motto is 'Service before Self' and Rotary has been instrumental in raising millions of pounds to support charities throughout the world. Locally Rotary has supported the annual 10K Run and the Christmas Market.

Prospective new members are always welcome at one on our informal evening meetings, which are held on the first, second, fourth (fifth) Mondays of the month in the Kirkbymoorside Library, from 6.30 pm.

**For further details please contact David Ward - 07718 532009.**

# KIRKBYMOORSIDE SHOPPING GUIDE

# Kirkbymoorside Environment Group

<https://kirkbymoorsideenvironment.wordpress.com>

**The Kirkbymoorside Environment Group** was set up thirteen years ago, and has worked to make Kirkbymoorside into a Transition Town - a town that prepares for the future, moving away from fossil fuel use and trying to limit its effect on climate change.

**Energy & Building Group** hopes to support people living and working in Kirkbymoorside to find out more about how to save energy and cut their bills. Thermal Imaging Camera available. Community energy co-operative company set up in 2013.

[helenspost@hotmail.co.uk](mailto:helenspost@hotmail.co.uk) or [keithdowell@googlemail.com](mailto:keithdowell@googlemail.com)

**Food Group** is encouraging and publicising sources of local food. When transport becomes even more expensive it will be good to have local sources of produce already developed and available. Supermarkets may not be such an attractive option in a year or two, when their transport costs become unmanageable. [amy.trevelyan@btinternet.com](mailto:amy.trevelyan@btinternet.com)

**Manor Vale Working Group** meets about three times a year to carry out woodland management, under expert guidance. [keithdowell@gmail.com](mailto:keithdowell@gmail.com)

**Kirkby Fruit Project** Members of this group take local surplus fruit that would otherwise go to waste, and make good use of it, for example pressing apples to make juice, cider and fruit cordials. More members are always welcome. [kirkbyfruit@gmail.com](mailto:kirkbyfruit@gmail.com)

**Waste and Recycling Group** is looking to cut waste that comes into our homes, and from there into our overstuffed land-fill sites. It also organises Give or Take days twice each year. There is also an ongoing project to reduce the amount of single-use plastic.

[Juneemerson@phonecoop.coop](mailto:Juneemerson@phonecoop.coop)

**Transport Group** is working on all aspects of cutting the demand for fuel by encouraging cycling and car-sharing, and looking at improvements to public transport, in particular improving bus services. [helenspost@hotmail.co.uk](mailto:helenspost@hotmail.co.uk)

**The Repair Cafe** happens every two months in the Moorside Room. Items that need alteration or repair can be brought, and volunteers either mend or offer advice on how to save the item from being thrown away. [Juneemerson@phonecoop.coop](mailto:Juneemerson@phonecoop.coop)

Kirkbymoorside, with its 750-year-old market, is a town that has so far managed to adopt the best, and survive the worst, of modern development. With care from its current inhabitants it could remain a beacon of civilised, human-scale living, whatever the future may bring.
