

CHURCHYARD AREAS

The churchyard is an approximately quadrilateral area with an indentation on the south-west corner on which the vicarage and church hall are built. The church itself is situated on the north-west corner of the churchyard. It is bounded on three sides by St James's Road to the west of the church, Park Road to the north of the church, and partly by St James's Avenue to the east of the church. The fourth side of the churchyard is partly fenced and the boundary runs beside private houses, the back of the vicarage and beside the church hall. The size is approximately 380 feet, Park Road boundary, by 250 feet, St James's Avenue boundary.
