

REEDHAM ECO CHURCH

TerraCycle and other local recycling - Autumn 2021

This list has been compiled from information at www.terracycle.com/en-GB and from local knowledge.

It is not a definitive list and may change over time.

Please check the website for opening times, other recyclable products and further details of what is and is not accepted in each category.

Please note on the website, if a product is marked full, that means that no more applications for collection points are accepted, not that the bins are full!

Also please note that some manufacturers sponsor some collection points, that does not usually mean the collection is restricted to that brand.

In this table, all brands are accepted unless otherwise stated.

Please try and ensure that packaging is as clean as possible.

Food & drink products.

Personal products.

Household cleaning products.
