

Senses: Sight

- **Equipment**

Blindfold, magnetic alphabet letters, magnetic board.

- **Set up**

Put the magnetic board and letters on the table, have a couple of blindfolds to hand.

- **Instructions**

Put the blindfold on, and then try to spell your name using the magnetic letters. It's difficult, isn't it? It's much easier to do this task when you can see.

It's easier to believe in things that you can see too. But Christians believe in God, even though God is not visible in the same way that other things are.

What do you think?

What do you believe in, even though you can't see it? (Love? Gravity? Heat? God?)
