What do you think?

Tell me about Religious Education

Maybe you are a subject leader, an inspector or a Foundation governor, but whoever you are, you care about RE in schools. This booklet provides a range of questions to ask the people who should be able to tell you most about RE in your setting.

We believe that by asking the right questions, you will gain a better picture of how enjoyable and effective the RE is in your particular setting, and that this will provide a springboard for even better RE!
Welcome!

In this booklet you will find questions to ask:

- Pupils
- An RE subject Leader
- Teachers
- Heads / SMT
- Foundation Governors
- Clergy
- Parents

Please feel free to select which questions to use and to add, adapt or re-word questions as appropriate.

The questions can be adapted for use in all schools but are targeted at Church of England primary schools.

These schools must meet all statutory requirements for RE, including study of Christianity and other major faiths practised in Britain. They must also take note of the Church of England’s Statement of Entitlement

They will also have the effectiveness of their RE judged in Strand 7 of a SIAMS inspection. Strand 7 is included at the back of the booklet for schools to look at and has influenced some of the questions in each section. The whole Evaluation Schedule can be found at:

Strand 7: The effectiveness of RE

In a Church of England school, religious education (RE) should be non-confessional and is considered an academic subject. Inspectors will consider the expectations of the locally agreed syllabus in VC schools and academies that were former VCs.

In this strand, the following must be explored:

- How effective the school is in ensuring pupils flourish through the provision of high quality religious education reflecting the Church of England Statement of Entitlement.
- How effective the school is in ensuring that religious education expresses the school’s Christian vision.

In developing effective religious education, a school must evaluate the extent to which:

a) Through effective curriculum planning, RE provision reflects the Church of England Statement of Entitlement, develops religious literacy and meets statutory obligations.

i. How well does RE help pupils to know about and understand Christianity as a living world faith through the exploration of core theological concepts using an approach that critically engages with text? How well does RE help pupils consider the impact and connection that Christianity has on Britain’s cultural heritage and the lives of people worldwide?

ii. How well does RE enable all pupils to develop knowledge and understanding of other major world religions and world views and their impact on society and culture?

iii. How well does RE give pupils a safe space to critically reflect on their own religious, spiritual and/or philosophical convictions?

b) Do teachers share effective practice locally and regionally and engage in professional development? Does RE have in place rigorous systems of assessment?

C) How effective is RE teaching and learning in the school?
