

## Contactless Donations - Testimonials

*"Back in October 2018, we purchased a contactless donation terminal for just under £360. Our terminal was pre-set to allow donations of £3, £5 or £10 and we launched near the end of November. Since that time donations of **£765** have been processed and the terminal has been **generally well received**.*

*On the Sum-Ups we **took over £300** over the course of 3-day Flower Festival...it has made **a huge difference** having contactless or chip & pin to offer."*

**Sally Wainman, Kesgrave**

*"...the contactless terminal **enabled** people who might have overspent elsewhere (refreshments, tombola) etc, to still give in the church itself...**we took £405** on the machine **out of a total of just under £750**."*

**Valerie Godden, Old Newton**

*"Despite a fairly slow start we have generated nearly £80 so far which is money **we wouldn't otherwise** have had."*

**Peter Halden, Great Cornard**

*"...in the beginning it was slowly accepted by the welcomers and visitors alike but now it is an **integral part of our fundraising**. In the beginning we raised about £50 to a £100 per month. This has now increased to about £900 per month and to date we have raised in excess of £10,000. **This is new money** as the cash in our cash boxes remains stable..."*

*...**I would recommend the use of this addition** to any organisation as we continue to be a cashless society, maintaining the level of giving that is needed to keep our historical buildings in good order."*

**Elizabeth Steele, St Edmundsbury Cathedral**
