

Tigers

Task 1

Using a mobile device or a tablet, in 'Google' search 'Tiger' scroll down and enable the 3D view – follow the instructions. So in front of you now should be a tiger!

Have a good look around the tiger. Focus on the markings and colourings.

Draw a side and front profile of a tiger then using whatever you have at home try and recreate the markings. See below for templates if you are struggling with a free hand drawing.

Task 2

Watch video clips:

<https://www.youtube.com/watch?v=jEQaRY4YpVo>

<https://www.youtube.com/watch?v=FK3dav4bA4s>

https://www.youtube.com/watch?v=8OmRW4em_vA

Make notes on Diet, Habitat, Endangered, Appearance, Species and Special features

Task 3

Create an information poster using your drawings and the facts that you have collected from the video.
