

Butterfly Life Cycle – Project in a Day

I have been spotting some beautiful butterflies in my garden over Easter. Have you noticed any?

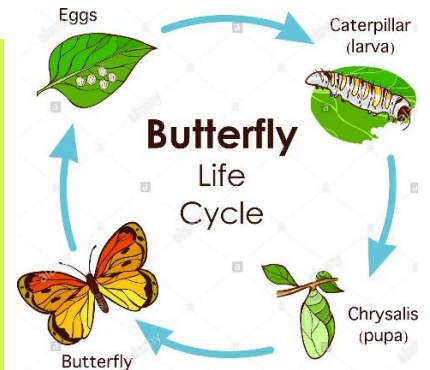

Butterflies have a fascinating life cycle. Watch this video to find out more;

<https://www.youtube.com/watch?v=3kZD6rISLUw>

If you want to find out more detailed information, watch this one too;

<https://www.youtube.com/watch?v=V5RSpMQQOpw>

Can you show the lifecycle? You can be as creative as you like. I've put some pictures to help you with information and ideas. You could write some notes (from information on the videos) on your lifecycle. I look forward to seeing your work.

Other things you could do

- Go butterfly spotting in your garden. Draw what you find.
- Find out about the life cycle of another creature that interests you.
- Design your own butterfly. Can you make the wings symmetrical?
