

Why do birds lay their eggs in spring?

Watch this video to find the answer. (You will need to make an account, but it's free and there's loads of great Science on this site.)

There are five amazing nests in the 'Bonus' section - all built in different ways and using different materials.

Can you make a nest from materials you find in your house and garden? You could plait grass, sew leaves together or weave in bits of paper and plastic.

Test your nest to see if it's strong enough by putting a stone, marble or even a real egg inside. Will your nest hold the 'egg' safely?
