Mission Statement and ethos

We seek to serve the local and wider community by offering children a caring and educationally rich learning environment in which to flourish as individuals and become increasingly valuable members of society. The school is committed to ensuring equal access for all its employees, pupils and any others involved in the school community, with any form of disability and will ensure that disabled people are not treated less favourably in any procedures, practices and service delivery.

Introduction

This plan is drawn up in accordance with the planning duty in the Disability Discrimination Act 1995, as amended by the SEN and Disability Act 2001 (SENDA). It is written in compliance with paragraph 3 of schedule 10 to the Equality Act 2010.

Definition of Disability

Disability is defined by the Disability Discrimination Act 1995 (DDA):

‘A person has a disability if he or she has a physical or mental impairment that has a substantial and long-term adverse effect on his or her ability to carry out normal day to day activities.’ Part 1 para 2 includes persons with past disabilities to be included ‘2.(1) The provisions of this Part and Parts II and III apply in relation to a person who has a disability as they apply in relation to a person who has that disability.’

Key Objective

To reduce and eliminate barriers to access to the curriculum and to full participation in

the school community for pupils, and prospective pupils, with a disability.

Principles

Compliance with the DDA is consistent with the school's aims and equal opportunities policy, and the operation of the school's SEN policy.

The school recognises its duty under the DDA:

- not to discriminate against disabled pupils in their admissions and exclusions and provision of education and associated services.
- Not to treat disabled pupils less favourably
- To take reasonable steps to avoid putting disabled pupils at a substantial disadvantage
- To publish an Accessibility Plan

In performing their duties governors and staff will have regard to the DRC Code of Practice (2002) and Equality Act 2010.

The school recognises and values parents' knowledge of their child's disability and its effect of his/her ability to carry out typical activities and respects the parents' and child's right to confidentiality.

The school provides all pupils with a broad and balanced curriculum, differentiated and adjusted to meet the needs of individual pupils and their preferred learning styles. The school endorses the key principles in the National Curriculum 2014 framework which underpin the development of a more inclusive curriculum: setting suitable learning challenges, responding to pupils' diverse learning needs, overcoming potential barriers to learning and assessment for individuals and groups of pupils.

Activity

- Education and related activities: The school will continue to seek and follow the advice of Local Authority services such as specialist teacher advisers and appropriate health professionals.
- Physical environment: The school will take account of the needs of pupils and visitors with physical difficulties and sensory impairments when planning and undertaking future improvements and refurbishments of the site and premises such as improved access, lighting, acoustic treatment and colour schemes and more accessible facilities and fittings.
- Provision of information: The school will make itself aware of local services, including those provided through the LA for providing information in alternative formats when required or requested.

Education and related activities

Improving teaching and learning lies at the heart of the school's work. Through self-review and Continuous Professional Development (CPD) we aim to enhance staff knowledge, skills and understanding to promote excellent teaching and learning for all children. We aim to meet every child's needs within mixed ability, inclusive classes.

Physical environment

We are a small, rural school with five classrooms, four of which are fully accessible and one has a fully accessible bathroom. Classroom allocation can be adjusted to meet mobility needs if required. We have a wide range of equipment and resources for day to day use. We keep resource provision under constant review. The school's improvement planning addresses this on an annual basis.

Provision of information

This includes planning to make written information that is typically provided by the school to its pupils available to disabled pupils. Examples may include handouts, textbooks and information about wider school life. This information should take account of pupils' and parents' preferred formats and be made available within a reasonable timeframe. The school will identify agencies and sources of such materials to be able to make the provision when required.

In all these areas, developments are identified, alongside other professionals at Inclusion Review Meetings and are included in school action planning documents and reviewed regularly.
