

Jesus & Peter

1. What would you say makes for a good friendship?
What do you imagine it was like to spend time in Jesus' company?
What might we learn from Jesus' approach to friendship?
2. In what ways might being an internal or external processor help or hinder our faith?
To what extent is honesty always the best policy when it comes to matters of faith?
3. To what extent do you agree that Jesus seems to value character over competency, & passion over perfectionism?
How might we determine what kinds of behaviours should exclude people from having roles of leadership in the church or community?
4. What in your life might God be calling you to be more like Peter & take risks in?
What might being prepared to take more risks look like in a church or community setting?
