

St Peter & St Paul, Ash is an

ECO CHALLENGE

MARCH and APRIL

Spring will soon be in the air with thoughts of cleaning!

In the house - Think carefully about the cleaning products you use.

There are effective ECO products available.

In the garden – wherever possible, compost the dead material you clear up.

Compost bins can be found a home in most gardens and homemade compost is wonderful for your plants. All vegetable and fruit peelings decompose very quickly too and can be added to the mix.

Please let us know if you have taken the advice of our Eco Challenges and what you have gained from them.
