How to make a Crown

1. Go on to the website below and choose a crown template to **download**.

<https://www.firstpalette.com/craft/paper-crown.html>

2. Print out the template on to an A4 piece of paper. If you print the zigzag crown, print two to fit.
3. Colour, or paint your crown.
4. Using the lines on the template, cut out the shape of the crown.
5. Glue the sections of the crown together. With the zigzag crown connect all sections by gluing the half triangle over the other section
6. You can choose to decorate the crown as a royal one with gems, sequins, shiny paper, or tinsel.

Here's an example below. Enjoy preparing to celebrate the arrival of Jesus the King of Kings!
