National Amenity Societies – Consultations to be made by DAC Secretary

The Ancient Monument Society (AMS)

St Ann's Vestry Hall, 2 Church Entry, London, EC4V 5HB.

T: 020 7236 3934

F: 020 7329 3677

E: office@ancientmonumentsociety.org.uk W: www.ancientmonumentsociety.org.uk

The Society is concerned with all types of listed buildings regardless of age or type. Therefore it covers churches from the Norman period to the 20th century. Broadly speaking, the Society would wish to see cases where there was an element of demolition or extension, or where the proposals included the removal of or alteration to a fitting such as a font, pulpit, screen, monument, stained glass window, choir stalls, etc. It does not need to be told about works of repair (except where fittings of interest are to be lost) or schemes involving new heating or new lighting, or any new work which is not at the expense of the existing work of interest.

The Georgian Group

6 Fitzroy Square, London, W1P 6DX.

T: 020 7387 1720

F: 020 7529 8939

E: consult@georgiangroup.org.uk W: www.georgiangroup.org.uk/index.html

The Group is principally concerned with churches erected between 1700 and 1840 and with furniture and fittings of the period. It is also interested in mediaeval churches which retain 18th or early 19th century pews and important Georgian monuments and churchyard tombs.

Society for the Protection of Ancient Buildings (SPAB)

37 Spital Square, London, E1 6DY.

T: 020 7377 1644

F: 020 7247 5296

E: casework@spab.org.uk W: www.spab.org.uk

SPAB mainly concentrates on mediaeval churches and on post-mediaeval churches built before 1715. Advising on the care and protection of historic churches has always been an essential part of the Society's work and they employ an officer whose primary concern is church conservation who also has a special interest in access for people with disabilities and sustainable development issues. The Society welcomes consultations on proposals affecting all ecclesiastical structures such as new-build extensions, re-ordering, etc but is particularly concerned with proposals which may damage the historic fabric – such as, for instance, a new door opening in a mediaeval wall – or which entail reordering of pre-Georgian fittings, for example. In addition the Society is able to provide technical assistance for churches of any age and queries to the above address would be welcomed.

The Twentieth Century Society

70 Cowcross Street, London, EC1M 6EJ.

T: 020 7250 3857

F: (020) 7251 8985

E: eplanning@c20society.org.uk W: <http://www.c20society.org.uk/>

The Society is concerned with churches constructed after 1914 and also with 20th century church fittings in earlier buildings. This is a subject area where little information has been published and the Society can be a valuable source of expert appraisal. Many 20th century churches of interest are not yet included in the statutory lists of historic buildings and for this reason the Society would like the opportunity to comment on proposals for both listed and unlisted churches.

The Victorian Society

1 Priory Gardens, Bedford Park, London, W4 1TT.

T: 020 8994 1019 F: (020) 8995 4895

E: churches@victorian-society.org.uk W: www.Victorian-society.org.uk

The Society was founded for the protection of Victorian and Edwardian buildings and is concerned that any proposals are sympathetic to the architectural and historic character of these buildings. Its role is to consider the historical significance and aesthetic value of the church, and to evaluate the impact of the proposed changes in this light. The Society, not least because the importance of 19th century churches is still insufficiently recognised and their architecture and fittings are regularly undervalued, would welcome consultations even on apparently minor matters.

Advisory Committees for the Care of Churches: Diocese of Leicester

Council for British Archaeology

Bowes Morrell House, 11 Walmgate, York, YO1 2UA.

T: 01904 671417

F: 01904 671384

E: info@britarch.ac.uk

W: www.britarch.ac.uk/index.html

The Council has strong church and churchyard interests across all the periods and has a particular interest in proposals, whether of repair or arising from new work, which disturb either sub-surface deposits or historic fabric.
