**Case No: L187/2013**

- 01. Relaying of the existing overhead cable underground in the new section of churchyard (work to be separately carried out by Western Power at their expense)
- 02. Laying on of a new electrical connection at the west end of the North Aisle, also new gas and water connections all from mains services in the road to the north of the churchyard
- 03. New foul drainage connection leading to the sewer in the road south-west of the churchyard
- 04. Replacement of existing obsolete storage heaters and wall mounted radiant heaters with a new 'wet' system with fan convectors and some radiators - convectors will be sized so that they can be operated on a medium or low speed setting; supplementary electric heater in the new meeting room to allow this to be independently heated
- 05. Builders work to include a new shallow duct across the east side of the church - floors appear to have been altered with new woodblock in the C20th - a floor duct would avoid need for unsightly visible pipework; there are no pre-existing accessible ducts we can use
- 06. Re-wiring generally with some new light fittings, and re-wiring of existing chandeliers
- 07. New screens at the west end of the church to create Meeting Room, Kitchen area and Accessible WC - screens to have oak panelling to 'outer' faces; above the Meeting Room frameless glass will extend up to the aisle roof/underside of arch to create an enclosed space for sound/heating control
- 08. Font re-positioned to the side of the South Door
- 09. Carpet finish in the new Meeting Room, antislip flooring in the WC. and locally within the working area of the Kitchen; elsewhere woodblock flooring to be made good with cost option for full sanding and re-sealing
- 10. Decoration including general re-limewashing of walls, painting of new pipework, paint to new partitions. Other associated making good works

**DAC Certificate Conditions: -**

- 01. That details of the works are entered in the Log Book so that a record is kept of what has been done

**Case No: L177/2015**

Repairs to the Tower as set out in the specification (July 2015) by Peter Rogan

**DAC Certificate Conditions: -**

1. That details of the works are entered in the Log Book so that a record is kept of what has been done

**Case No:**

1. Replacing carpet in children's area, with slate blue carpeting, picking up the colour in the floor tiles  
2. With the same carpeting laying a rug in the Lady Chapel, 3m x 4m

**DAC Certificate Conditions: -**

1. That details of the works are entered in the Log Book so that a record is kept of what has been done  
2. That since the carpet, as opposed to the underlay, is not totally breathable, the section laid in the carpet should be lift at least periodically to allow any moisture to be
