Case No:

1. Concerning the Font: -
a) Removal of existing concrete platform
b) Replacement of existing base with a new circular stone which better matches in colour
c) Replacement of existing carpet in the open area and meeting room with an oak strip floor and associated adjustment of sliding dividing wall
N.B. The Font, together with its wooden cover, will remain in its existing position. The proposed work is shown on drawings numbered 91458/01 and /02 and a schedule of work prepared by Keith Hamilton, the church architect

2. Repairs consisting of: -
a) Re-bedding of Tower roof ridge tiles
b) Re-pointing of Tower roof verge
c) Replacement of corroded Tower flag support
d) Re-pointing the coping to the north-east of the South Aisle roof
e) Replacement of temporary mastic repair to the north-west corner of the same roof with a more robust repair
f) Repair of the slipped slates on the Chancel roof
g) Replacement, on a like-for-like basis, of cracked glass on the Communion Table
N.B. The proposed works are shown in Syston Glass's invoice dated 2nd December 2015 and in Norman & Underwood Ltd.'s report dated 14th December 2015 & quotations dated 27th July 2015 and 11th January 2016. The works are all matters prescribed in the first column of Table 2 to Schedule 1 ("List B") of the Faculty Jurisdiction Rules 2015 but have been included in this petition for convenience as the first proposal requires a Faculty.

Case No:

1. Replacement of existing floorboards in the pews (all of which are badly decayed)
2. Removal of the plinths on which the pews stand
3. Lower the existing joists & replace any that are defective and lay new oak boards on them to create a new floor that is level throughout the Nave
4. To remove the existing electrical sockets and conduits in the pews and fit stainless steel floor boxes and sockets
5. Re-instatement of the pews and frontals to their existing positions to be secured so as to permit their easy removal
6. Remove and dispose of redundant boiler from its void under the floor
7. Support the concrete slab above the void temporarily with Acrow props

The proposed works are shown on (a) the church architect's drawings 13325/01, 02 and 03 and his specification dated January and April 2019 and (b) the estimate dated 16th April 2019 of John Unwin Electrical Contractors Ltd.

Case No:

1. Lift the existing lead flashings (potentially these will be replaced, because we suspect the o/a depth requires increasing).

2. Remove app. 12no stainless steel roof trays to expose the abutment wall and identify the pathway of water ingress. The batten roll roof trays can be removed and replaced.
The eave detail terminated in this method can be problematic and susceptible capillary reaction?
Current details now have a rebated eave.

3. Assuming the flashing are the cause, these may have to be sacrificed and a new joint cut deeper and new flashings inserted.

4. Install a water diverter beneath the RWP's to control the rainfall down the roof slope.

DAC Certificate Conditions: -

1. That details of the works are entered in the Log Book so that a record is kept of what has been done

2. That the work should be carried out at the direction of the church architect

Case No:

Felling of dangerous Tree

DAC Certificate Conditions: -

1. That details of the works are entered in the Log Book so that a record is kept of what has been done

2. That work should avoid disturbance to nesting birds. Birds can nest in many places including buildings, trees, shrubs dense ivy, and bramble/rose scrub. Nesting birds are protected under the 1981 Wildlife and Countryside Act. The main nesting season lasts approximately from March to September,
