

DIOCESE OF COVENTRY
DIOCESAN DESIGNATED MISSION HUB CHURCHES
ASSOCIATE MINISTER

ROLE DESCRIPTION: Ordained Anglican Associate Leader within a Diocesan designated Mission Hub Church

LOCATIONS: Rugby, Bedworth, Coventry

BACKGROUND TO POST

‘Growing the heart of England’ Vision for 150 new worshipping communities by 2032

This post is one of six new posts (Alcester, Leamington and a further Coventry one already recruited), each funded by the Diocese for an initial period of five years, as part of an exciting and adventurous mission strategy to see Healthy churches, propagate, plant, or graft 150 new worshipping congregations / communities / church plants over the next ten years.

The Appendix gives further information about our growth strategy: Growing the Heart of England.

A Mission Hub Church is a parish church (or Benefice), but one where a leader and its congregation have a developed sense and vision for sharing in mission locally, and a clearly expressed desire, ability (or potential with added investment) to resource others in mission, evangelism, and enabling new ways of being church such as Fresh Expressions.

Some hubs churches will have larger, more gathered congregations, with those coming from beyond the parish, but having a growing desire to help grow the church in the community they live in too, and to be in a wider enabling partnership with others irrespective of tradition or style of worship. Some will have leaders with particular charisms that facilitate leadership with a wider emphasis than parochial leadership in a parish / benefice.

To achieve good coverage of the diocese we have identified 6 potential locations for our regional mission hub churches. Due to population density 2 hubs are proposed to serve Coventry, 1 in Nuneaton / Bedworth, 1 in Leamington Spa, 1 in Alcester (but possibly working with Stratford-upon-Avon too), and a sixth situated in Rugby. The locations enable us to offer enabling support to other parts of our diocese including rural areas.

A Mission hub church will offer a gathering point and a focus where people can come from local churches that the hub is seeking to enable and support. They will facilitate learning together, (especially for lay leaders/teams), encourage and share good practice, develop local mentoring between churches. They will be a little like a modern day version of a minster church to serve and equip churches around them. They will accompany and enable development of new congregations and ensure that central resources and drawn on in the right way to support this work. (If you think of a wheel then there is a hub connected by spokes to a rim. The design (connection) enables the wheel to rotate and perform its role.)

Any church can work with their nearest mission hub church, identify what needs they have in

order for them to grow, and what gifts and experience they could share with others via the hub network. This will enable the sharing our gifts for mission and ministry in new ways between different churches and traditions. A mission hub church can also work with a church in any other part of the diocese that it has a particular relationship with that could facilitate mission.

Summary of Role
