

Cleaning products for Church buildings

Historic England's advice is

- *Metal/wood/stone/glass/ceramic/modern painted surfaces can be cleaned with a dilute solution of non-ionic conservation-grade detergent or **sensitive washing up liquid and distilled water, rinsed with distilled water** and dried immediately with white paper towel or soft cotton cloth. Follow manufacturer's instructions for dilution, application and contact times (a minimum contact time of 20 seconds is currently advised by PHE) for all detergents.*
- *Please see full details in the **Keeping Church Buildings Clean** document available under COVID-19 **FAQs Fabric and building maintenance** which includes ref to fogging and misting treatments <https://www.churchofengland.org/more/media-centre/coronavirus-covid-19-guidance-churches>*

DISCLAIMER - *The products mentioned below have been collated locally as examples and for your information ONLY and do not imply diocesan endorsement. Please follow the advice published nationally when deciding what to use when cleaning your building.*

<p>LIQUID DETERGENT EXTRA STRENGTH LEMON 25% ACTIVE 5 LITRE</p> <p>https://superfine.co.uk/product/liquid-detergent-extra-strengt-lemon-25-active/</p> <p>also through the Parish Buying website</p>	This is a non-ionic liquid but it doesn't purport to be conservation grade	<p>5 litre £6.85 excl VAT</p>	<p>Ingredients</p> <p>Greater than 30% Anionic Surfactants, Less than 5% Non-ionic Surfactants, Parfum (Limonene, Citral (Neral + Geranial)).</p> <hr/> <p>Directions for use:- Dilute 1 part Liquid Detergent to 100 parts of preferably hand hot water. Using a sponge, mop or cloth that has been immersed in the dilute solution, wipe over the surface to be cleaned and if necessary wring out cloth and wipe over to remove surplus fluid. Alternatively use in a similar way to washing up liquid by immersing completely, rubbing over, with a cloth then rinsing with clean water. Store in original containers preferably in a cool environment, where possible avoid extremes</p>

			of temperature.
<p>Safeclean</p> <p>www.Klcchemicals.co.uk</p>	<p>PRODUCT DESCRIPTION: SAFECLEAN has been specially formulated to kill/inhibit both bacteria and viruses (including enveloped viruses such as coronavirus) for up to five hours on a variety of surfaces such as handles, handrails, doors, tables and desks, and other areas of frequent contact, with a single coating. It is ideal for offices, conference centres, sports clubs, educational and care facilities and motor vehicles, as well as entertainment and hospitality venues, including restaurants and pubs. It is safe to use on the skin and alcohol free, meaning that there is no drying or irritation to the skin.</p> <p>Active biocides present in the formulation provide a longer lasting protection than alcohol based preparations. It does not stain, is non-corrosive and will give a streak and smear free finish to most polished surfaces including glass and stainless steel. We recommend you try the product on all surfaces before proceeding with mass sanitisation.</p>	<p>22litre canister £270.00</p> <p>500ml aerosol £5.99</p>	<p>Safe on any surface 5 hrs protection Activates instantly Easy to use</p> <p>SAFECLEAN has been tested to BS EN 1276 which is the European standard for the bactericidal activity of chemical disinfectants, and provides proof of efficacy in the control of harmful micro-organisms. In order to meet the standard, products are tested by an independent laboratory, and must denature 99.999% within 5 minutes.</p> <p>Composition- organic non chlorinated solvents Propellant- Hydrocarbon</p>
