

ENABLING ALL

Working to build church communities
with people of all abilities

Building Access Audit

As you collect this information you may identify access barriers which can be easily improved or resolved. It may also highlight things which you may like to improve in order to widen access to the building for more people in your community. We have lots of information and advice about that, so don't hesitate to contact the Enabling All team to find out more

Venue		Date	
-------	--	------	--

How far from nearest train/ bus station ?	
---	--

Car Parking

Where do People Park?	
Is this obvious?	
Is there Disabled Parking?	

How far is the parking from the Entrance?	
Are the gates easy to Open?	
Do slopes have a handrail?	
Are there any trip hazards?	
Is there adequate lighting?	
Is the path wide enough for wheelchairs (1.2m) ?	

Entrance *Please also include picture of the Entrance.*

Is the venue signage clear and the entrance well signposted?	
Is there a ramp (if needed) ?	
Are the doors easy to open?	
Are they wide enough for wheelchairs? (1000mm is standard, most wheelchairs will pass through 760mm)	

Lighting and Vision

Are lighting levels constant throughout the building?	
Is there adequate artificial/natural lighting?	

Hearing loops

Is there a hearing induction loop?	
------------------------------------	--

Is it always used?	
Is it regularly tested?	

Can all areas be reached by a wheelchair?	
Are any steps or ramps well lit and have rails?	
Can everyone access the emergency exits?	
Is there a quiet space people can withdraw to if they become anxious?	

Toilets

Do you have a toilet?	
If not what arrangements are available for people?	
Is it fully accessible?	
Does it have an alarm system?	
Is the toilet seat a contrasting colour to the surrounding walls?
