

Church Health Courses

Over the years there has been a lot of talk and training about church health. Healthy things grow. The biblical analogies of the seed and the vine make this point again and again. We long for Lichfield Diocese to be full of healthy growing churches. In this section you will find listed some of the health courses we have known churches use and we recommend.

In addition to those listed on the main page, there are also:

- **Growing Healthy Churches**

This is a twelve page leaflet available through [ReSource](#).

- **Developing Healthy Churches**

This is Robert Warren's latest book and a distillation of all the wisdom he has accumulated in ministry – well worth every penny – a great resource book [here](#).
