Additional Information

Video Rights within the church are decided on an individual basis

Flowers can be done by the church flower arranging team, or you can use your own florist. This needs to be discussed with the flower arranging team, whichever option you choose.

You will be asked to decide at least three months before your wedding which of the extra things you would like for your wedding as the people involved need to set the date in their diaries.

You may be asked for a deposit when you start planning your wedding.

ALL costs are payable one month before the service.

Once your wedding date is set, you will be expected to have preparation meetings with the clergy member who is going to marry you. This is so that all aspects of your wedding can be discussed well before the important day.

You will also be asked to have a rehearsal just before your wedding with as many of the people directly involved as possible. It is best to have your Order of Service for your wedding organised well before this, at least a month before, so that everyone knows what is happening and can make sure everything goes as smoothly as possible.
