

RESPECT

Spring 2017
Years 2 & 3
Main Text: The Tin Forest

Literacy

This term we will focus on learning and using a wide range of sentence structures. We will learn to use speech in writing and how to use the correct punctuation. We will continue creating and learning to recite poetry, and focus on instruction writing.

Numeracy

This term we will continue to develop our skills across the 4 main calculations, secure our ability to read the time and work with money using the correct notation. We will make links with our topic work and complete data handling studies around the village involving litter and plants.

Science

This term we will cover three themes in science, and will make purposeful links with our local environment and respect for the world via recycling. During these studies we will consider animals and their habitats, materials and their properties and magnets.

Religious Education

During R.E week we will focus on the concept of creation and will consider how Christians and Jewish people believe that God created the World. We will explore ways in which Christians show their thanks to God and consider how we can look after the world he created.
