

Maths

In the autumn term in maths Year 4 will be covering a range of number work including place value, addition and subtraction and multiplication and division. We will also be working on our measurement skills including length and perimeter.

Within these skills we will be working through a range of fluency, reasoning and problem solving tasks.

Children will also be practising their times tables regularly.

Science

In science, Years 3 and 4 will be learning all about light at the start of the autumn term. They will be learning about the difference between opaque, transparent and translucent and designing their own reflective book bags.

In the second half of the term we will be learning all about our bodies! We will be looking at our skeletons and digestive systems

Autumn Term
2018/2019

Years 3 and 4

Miss Young

English

In the autumn term in English Years 3 and 4 will be covering a range of types of writing covering fiction, non-fiction and poetry.

In the first half of the term we will be particularly be focusing on studying and writing our own fables, instruction texts, stories and will be performing our own poems!

In the second half of this term we will be basing lots of writing on the short film 'Girl and Robot'. We will be recapping our work on instruction writing, coming up with our own endings to the story, making predictions and writing diaries.
