

Supermarket Mayhem

Think about it!- How many g are in a kg?

Do it!-

Help out the supermarket manager by solving the following problems.

1. Order the groceries from smallest weight to largest.
2. Which is the heaviest item?
3. Which is the lightest item?
4. What are the total weights of:
 - a. The Mini Cheddars and the Hovis bread?
 - b. The Frosties and the Muller Corner?
 - c. The Eggs and the Dairy Chocolate?
5. What item weighs more than 1kg?
6. What two items weigh the same?
7. Multiply the weights of these items:
 - a. Mini Cheddars x5
 - b. Hovis bread x2
 - c. Eggs x3
 - d. Muller Corner x2
