

HARLOW COLLEGE CHAPLAINS

NEWSLETTER OCT-DEC 2019

Rejoice with us!

We finished 2019 with a very busy term in the college as we experienced an increasing number of students looking to use the Listening & Support Service.

We are praying for a greater increase in that number in 2020 as we plan to advertise our service more widely around the campus and reconnect with some of the contacts we made in the past.

One of these contacts is a ESOL group made up mostly of young refugees. We have been invited to drop in at their classes on a regular basis to begin building relationships with them to the point that they feel secure enough to make use of the Listening & Support Service at a more individual level.

We are still praying for more open doors and believing in God's favour in this new year.

We are greatly thankful for your prayers and support!

Mauricio & Sibebe Colussi
