

THE SPECIAL SPIRIT OF THE CONGREGATION
OF THE SACRED HEART OF JESUS

"The spirituality of a religious family constitutes a global package. It can be compared to a tree with its roots, its trunk, its principal branches, its leaves and its shoots".

The Spirit of the Congregation expresses itself:

- in a spiritual life of which the source and secret are the contemplation of the mystery of Christ in that dynamic of his Heart, simultaneously offered to the Father to glorify Him and offered to humanity to save them;
- in a life of personal consecration through the vows;
- in a community life in which we manifest "the sentiments of charity, humility, gentleness, obedience, devotedness contained in that first act of the Sacred Heart: Ecce Venio!";
- in an apostolic life which strives to be always fully available for the service of the Church.
