

Dear Neighbour,

My name is _____ and I have become a volunteer for One Can Trust Food Bank in High Wycombe, which provides emergency food parcels to vulnerable individuals and families locally. They are now feeding hundreds more people per month due to the coronavirus, with demand having doubled in recent weeks and expected to rise further still.

I am collecting food donations for them from our community and will be setting up a socially distanced drop-off point at my home _____ on _____ between _____

There is currently a shortage of essential items including corned beef, mincemeat, stewing steak, ham, tuna, canned vegetables and long life milk and we are asking if you could please donate a couple of cans each week whilst this crisis continues. A massive thank you to all my neighbours who are able to help and please don't forget to stay safe!
