

Thinking it through

The Bible tells us that Goliath was over nine feet tall. If you are out and about have a look around you to see if you can see some things in nature that are nine feet tall

Being so tall means he would have had to bend down to go through the doors in our houses. More to the point it meant he was much taller than David, it might be like somebody in Reception class choosing to fight somebody in Year 12, do you think it would be fair?

Have a chat about David and Goliath.

What did Goliath have to fight with?
Who did he trust?

What did David have to fight with?
Who did he trust?

Can you see that trusting God makes a difference, not just for David, but for us too?

Here are some songs that remind us that God is faithful and that we can trust him, also that we don't need to be superheroes; God uses ordinary people, in extraordinary ways.

All through history (Noah built a most enormous boat)

David wasn't relying on what he was able to do, he told Goliath that it would be God who won the battle.

"And everyone assembled here will know that the LORD rescues his people, but not with sword and spear. This is the LORD's battle, and he will give you to us!"

1 Samuel 17:47
