

————— Solid lines mean cut

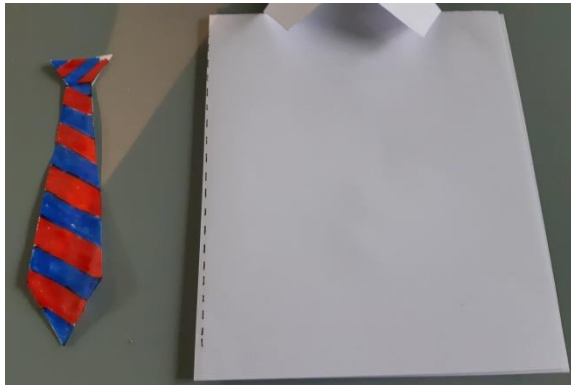

- - - - - dashed lines mean fold

Cut out the rectangle including the tie and put to one side.

Cut the short solid lines (be careful not to cut all the way along. Then fold along the dashed lines to form a collar.

The tie can either be coloured in or used as a template to cut out from another colour paper or material.

The tie should be glued onto the paper with the flat edge in line with the cuts. Then glue down the corners of the collar..
