

Thinking it through

If you go for a walk, you don't see many frightening animals. You might see Lions on a trip to the Zoo but nobody is asking you to spend the night with them. What animal might you most like to see?

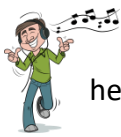

Jealousy meant that the other administrators and satraps didn't want Daniel to succeed. Being important and feeling important meant the King went along with their plan, he didn't think it through.

Having feelings is not a bad thing, but we must not let our feelings lead us into foolish ways.

When faced with breaking the King's Law, or not following God. Where did Daniel turn for help?

How can we be sure of what God's way is?

When we're feeling unsure we need to remember God's faithfulness, songs can help us do this.

When God saved Daniel, the King realised who God is and many more people learned about the one true God.
