

Edible story:

Make blue (or other colour) jelly in bowl/cup. Stir it to break it up and create waves.

Add a piece of chocolate (or another appropriate food item) to represent the boat.

Retell the story - shake the bowl so the boat is thrown about on the “waves” of jelly.

When you get to the part about the storm clouds building up before the storm, dollop whipped cream or ice-cream on the top.

As the storms grow more violent stir it all together.

Then eat!!!
