

Hollinhey Primary School once again took part in National Sports week! We arranged a week of activities across the school with the aim of being as active as possible throughout the school day. The week began with our Sports Day on Monday. There were also a number of different sports introduced to the children throughout the week including *football, yoga, cricket, tennis and 'gutter games'* to help develop team work and leadership skills. Year 3 had a football morning arranged which they thoroughly enjoyed! Year 5 took part in some Tri Golf lessons which went down a treat with the children and they really loved trying a new sport.

The week culminated in our **'Race for Life'** on the Friday where the children ran, jogged & walked 2km around our beautiful school grounds to raise money for Cancer Research UK. We raised **£1£1,437 for Cancer Research UK.**

Here are some photos below.
