

Reading

Don't forget to read five times a week for ten minutes a day.
You can record your reading on Go Read!

Mighty Maths/TT Rockstars

Don't forget to practise your times tables in a variety of different ways! How many can you answer in 4 minutes?

- Draw an outline of yourself and fill it with doodles and drawings of your favourite things. You could include hobbies, food or friends.
- Create your own family tree - how creative can it be?

- What is your family's favourite food? Collect tally data and create a graph to show the most popular.
- Create a healthy snack and take some photos. What will you put in it? Write out the recipe for us using the correct measurements.
- Come up with a way to help you remember your times tables. Maybe a song, game or poster?

Tadpole Farm CE Primary Academy

Pick and Mix Home Learning 2021/22 Year Three - Term 1

This home learning sheet has optional activities to support your child's learning at home.

They are all based around our topic this term:

All the places we'll go...

You can upload photos to Seesaw using the home learning codes.

We will be celebrating and sharing the children's learning in class across the term.

- Make a recipe that describes you and your personality. What would we need to add to create you?
- Plan an exercise class for your family and friends to help them stay healthy.

- Create a new UK city. Where in the UK would it be? What would the landmarks look like?
- Take a walk and map out what you see around you. What is natural and what is man made? You could take some photographs or draw them on a poster.

- How could you show one of our school values today? Make a poster or maybe write a song about how you will do this.
- Listen to some music and draw as you listen. What patterns and shapes does it make you draw?
