

Avoid the Three Cs

Be aware of different levels of risk in different settings.

There are certain places where COVID-19 spreads more easily:

Crowded places

with many people nearby

Close-contact settings

Especially where people have close-range conversations

Confined and enclosed spaces

with poor ventilation

The risk is higher in places where these factors overlap.

Even as restrictions are lifted, consider where you are going and #StaySafe by avoiding the Three Cs.

WHAT SHOULD YOU DO?

Avoid crowded places and limit time in enclosed spaces

Maintain at least 1m distance from others

When possible, open windows and doors for ventilation

Keep hands clean and cover coughs and sneezes

Wear a mask if requested or if physical distancing is not possible

If you are unwell, stay home unless to seek urgent medical care.
