Illnesses at nursery

Dear Parents/ Carers,

We have an increasing number of children displaying high temperatures, coughs and cold like symptoms within the nursery. To support the well being of the entire school community please keep your child at home if they are not well enough to be at school.

If your child is absent, please remember to phone the school office on **0121 675 7410** and leave a message if the line is busy. Alternatively send an email to enquiry@bgens.bham.sch.uk.

Hand Foot and Mouth

We have also had a number of confirmed cases of Hand, Foot and Mouth which presents as flat discoloured spots on the hand, feet, groin and mouth. There is no treatment but it usually resolves itself in around a week. Children generally feel unwell and have a temperature which can be lowered with ibuprofen, as above please keep your child at home if they are feeling unwell.

Yours sincerely,

David McCallin
Head Teacher
