

## Nursery Home Learning Activities

During the school closure please try and do some learning each day. This will help you continue to build on the skills and knowledge that we have been practising.

### Practical activities

We have included a selection of practical activities based on the Early Learning Goals. Please complete one of these tasks daily and if possible stick which one you do in the exercise book and make some notes about what your child did and said during the task.

### Resources Section

BBC Bitesize - has a wealth of revision activities
