

**23.04.20 Science**

Hello everyone in Year 5 and 6

I hope you are all getting on ok with your work. I hope you will find this term's science topic really interesting!

Here are some online teaching resources to help you with your work.

The first link below is to the Oak National Academy. This is an online learning platform, where teachers will present a lesson to you. There will be a sequence of lessons which will help you with your current unit of work. The one for this week will be a good introduction to the topic. Try and do the before and after quiz for each lesson, like we do at school at the start and end of a topic, as this will show you how much you have learned in the lesson.

<https://www.thenational.academy/year-6/foundation/what-is-the-theory-of-evolution-year-6-wk1-3/>

See how much you can find out from this lesson.

In addition, you may want to look at BBC Bitesize too. There are lots of different clips accessed by the link below which will help you with the whole of this topic.

<https://www.bbc.co.uk/bitesize/topics/zvhhvcw>

I hope you find these helpful.

Mrs Budd
