

Water Music Graphic Score

A graphic score uses pictures, drawings or symbols to represent sounds.

- 1) Look at the 3 pictures above-can you find a sound to match each one? You could use your voice or body percussion (eg clapping, stamping) or instruments to make your sounds.
- 2) Once you have chosen your 3 sounds then play each sound as you follow the pictures across from left to right.
- 3) You can change the order of the pictures which will also change the order of your sounds.

POLLY PUT THE KETTLE ON GRAPHIC SCORE

Instead of using water/rain pictures use pictures or drawings of munching food, slurping drinks or blowing out candles on a birthday cake to make your score. Find a vocal sound to match each picture.
