## Your Call

What am I for? What's the point of my life? This is a question people of all ages seem to be asking with increasing regularity. We all recognise that life is precious and so we want to make the most of it and of the gifts that God has given us. Sometimes, however, we lack the confidence to know exactly what our gifts are, or we might be unsure about how to take the next step. **Your Call** is a four part sermon series running on Sunday mornings at the 9:30 am and 11:00 am services from 14<sup>th</sup> October - 4<sup>th</sup> November. Its aim is to draw inspiration and encouragement from the way in which God called and equipped four ordinary people, Isaiah, Moses, Samuel and Ruth, to do extraordinary things in his service.

If you would like a further conversation about the process of discerning your gifts and identifying the next step in following God's call on your life, then please feel free to ask for a conversation with one or our Churchwardens, Readers or Clergy.

## Jen Bursell reminds us all to improve our e-mail safety

In a world where we are increasingly reliant on the internet, we have recently been reminded how vigilant we have to be in terms of our data and how secure it is.

Unfortunately my e-mail got hacked into (don't ask me how – I thought my password would have been hard to get hold of). The hackers sent out an e-mail which stated we were in the Ukraine and that I needed money after a mugging - this was sent to all my contacts. Then all my contacts and e-mails were deleted, so I had no way of seeing who had received it. I am so sorry if you did.

I have, of course, changed all my passwords and have deleted my old e-mail address. To try to make some good come from this I thought I'd share some of the ways I've been advised that can improve e-mail safety:

- make sure your e-mail password is very different from any other passwords you use,
- passwords need to contain numbers and letters (a 50/50 split is good),
- if an e-mail isn't addressed to you personally, or you think that something isn't right – contact the person/organisation by another means to double-check,
- contact *Action Fraud* ([www.actionfraud.police.uk](http://www.actionfraud.police.uk) or 0300 123 2040) if you are concerned that a potential cyber crime or fraud has taken place,
- if you are concerned you might be at risk of identity fraud, place yourself on the *Cifas* list ([www.cifas.org.uk](http://www.cifas.org.uk) or 0330 100 0180); it costs £20 for two years and they alert organisations if an individual applies for something in your name.

Once again sorry to those who it affected, and thank you to all of you who showed concern – it has been the good in a bad situation.

### *Green Your Life* eco tip of the week

#### **October – keeping warm**

Stop the draughts! Professional draught-proofing of windows and doors, and blocking cracks in floors and skirting boards can save around £25 a year on energy bills. DIY draught-proofing can be much cheaper. Installing a chimney balloon could save around £15 a year as well.

**New to St Peter's?** Please fill in one of the welcome cards in the pews and hand it to one of the clergy.
